DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a device having all of the limitations of claims 1 and 12. Rieber discloses a device which bears some similarity to the claimed invention, in that it discloses a frame of interconnected support members which are configured to form a substantially dome-shaped structure, and a harness 18 which extends from the apex of the frame structure to support a person. However, the harness is not a "sports board". One of ordinary skill in the art, upon reading the specification, would understand a "sports board" to be a surfboard, a snow board or some similar structure. For similar reasons, swings such as those disclosed by Weakly, Melrose and Caulkins are not considered to be sports boards as the term is understood. Rieber does not disclose such a board, nor is there any motivation or suggestion to modify the teachings of Rieger to provide such a board, as Rieber is directed to an infant's activity center, and not a sports training apparatus. Further, Rieber fails to disclose or suggest a means for connecting a sports board to a first member which performs substantially the same function in substantially the same manner. The claimed invention requires more flexibility and range of movement than the device of Rieger provides, to enable a user to perform aerial maneuvers. Because the prior art does not disclose or suggest each

and every limitation in the claims, claims 1 and 12, and all claims dependent therefrom, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rieber, Cloutier, Gaylord, Olson, Schmid, Ferrand, Sokolowski, Owsley, Jenkins, Sorenson, Lew, Moscarello and Giovanni disclose various sports training devices. Weakly, Melrose, Caulkins and Delvin disclose various swing devices.
